FREIGHT MANAGEMENT SOFTWARE

Use our cost-effective, intuitive planning, procurement and execution platform to manage RFPs, handle spot procurement, set tender guidelines, and track freight with your carriers. The platform reduces annual freight costs by providing insights on price forecasts, real-time and historical pricing comparisons, and lane data. You can easily find spot rates for modes such as FTL, LTL, vLTL, and Drayage. If there are issues with your carriers, our freight brokerage is available for assistance,

FREIGHT BROKERAGE

Our brokerage handles FTL, LTL, PTL, Drayage, and Intermodal freight, ensuring quality service. Features include:

- Instant pricing
- Spot API Ratings into your TMS
- Dynamic Contracts that adjust to market conditions
- Booking and Tracking platform
- 24/7 support of freight specialists

DOCK & YARD SOLUTIONS

Opendock, trusted in over 3,000 warehouses, is the top dock scheduling software offering carrier scheduling, workflow tracking, and data-driven carrier performance insights.

Enhance yard and asset visibility with our computer vision software and hardware that auto-reads plates, spots damages, and tracks trailers, streamlining check-ins and inventory management.

TRUCK MANAGEMENT SOFTWARE (CARRIER TMS)

Our Carrier TMS drives profitability for carriers and private fleets through an intuitive turnkey truck management system that connects carriers to an agnostic marketplace of loads, services, factoring, and integrations.
