

# YARD MANAGEMENT IS COMPLEX, BUT IT DOESN'T NEED TO BE

## Take Control of Your Yard Operations

Managing a busy yard can be chaotic, but it doesn't have to be. Our Yard Management System (YMS) offers an intuitive, customizable solution to track, manage, and assign trucks, trailers, and containers throughout your facility's yard. From the initial driver check-in to asset departure, our YMS ensures full visibility and seamless communication between all parties, giving your team the tools they need to run an efficient yard.

### Key Benefits

- **Full Visibility of Yard Assets:** Gain real-time visibility of trucks, trailers, and containers, including their statuses and exact locations
- **Simplified Truck Assignments:** Quickly assign and reassign trucks to yard spots or doors with a simple drag-and-drop feature
- **Enhanced Driver Communication:** Keep drivers in the loop with automated, two-way SMS messaging from check-in to departure
- **Customizable Yard Layout:** Design your yard to fit your facility's unique needs, whether it's parking areas, container zones, or dock doors
- **Integration with Dock Scheduling:** Gain visibility into when appointments were scheduled, their original dock assignments, and how they align with actual yard operations

### Key Features

#### Driver Check-In and 2-Way SMS:

Drivers can check in via QR code or tablet, providing personal and asset information. Stay connected through two-way SMS for updates and instructions

#### Customizable Yard Areas:

Create tailored yard layouts by naming and managing parking spots, container zones, and dock doors. Mark spots as open, closed, or occupied, and add notes when necessary

#### Drag and Drop Trucks to Assigned Spots:

Easily move trucks from the waiting area to their assigned spots with drag-and-drop functionality. Trigger automated SMS notifications to keep drivers informed

Let's simplify your yard together!
