ShipperGuide is a unique and innovative all-in-one platform that delivers end-to-end support and transparency that shippers need. Shippers can optimize their operations by managing shipment requirements, discovering rates for spot and contracts – from Loadsmart and other providers in their network, tendering to their carrier of choice, and tracking loads from pickup to delivery, **all from one centralized dashboard**.

### One Centralized Platform For All Your Freight Needs

A single platform that enables you to manage all of spot, mini-bids, RFP rates and execute your freight all in one place. Easily track and trace all of your Loadsmart brokerage shipments and share real-time information about your loads with team and clients.
